Pre-Construction:
2,416 miles
(29% of the total miles)

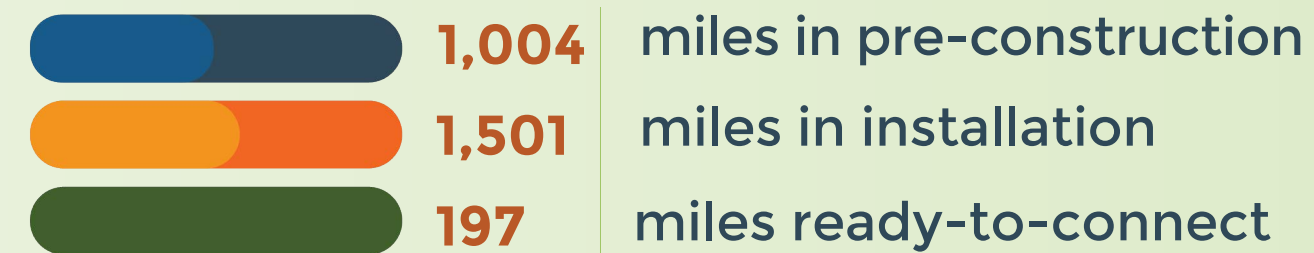

Installation:
4,622 miles
(57% of the total miles)

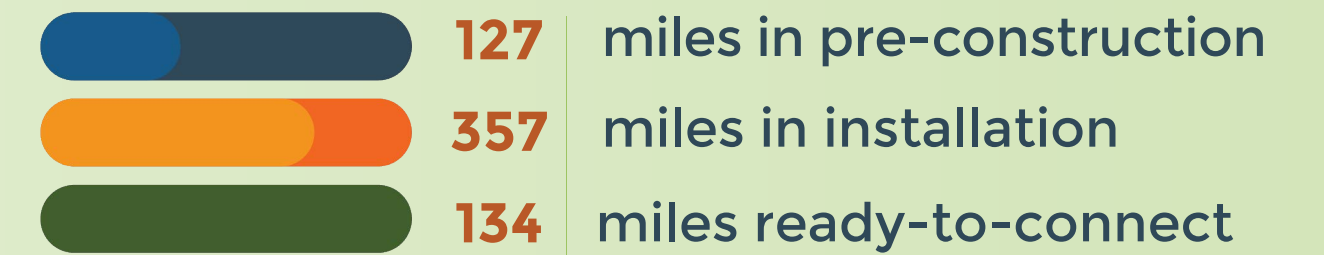

Ready-to-Connect:
1,179 miles
(14% of the total miles)

2. Network Development Activities

Northern Region: 2,702 total miles

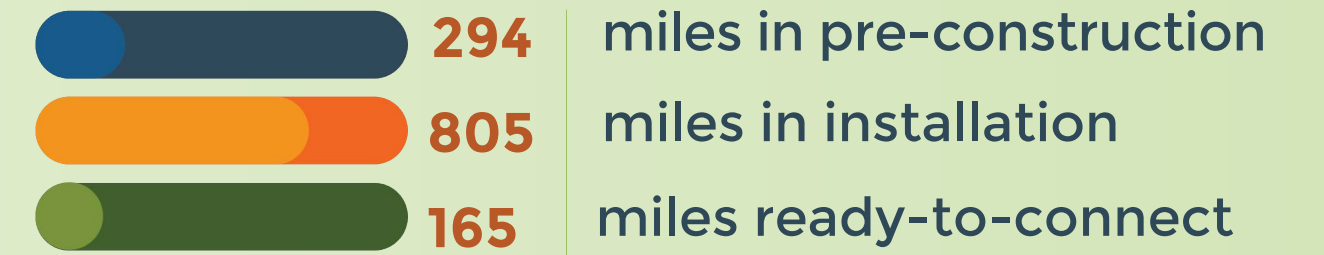

Los Angeles Region: 618 total miles

Capital Region: 1,654 total miles

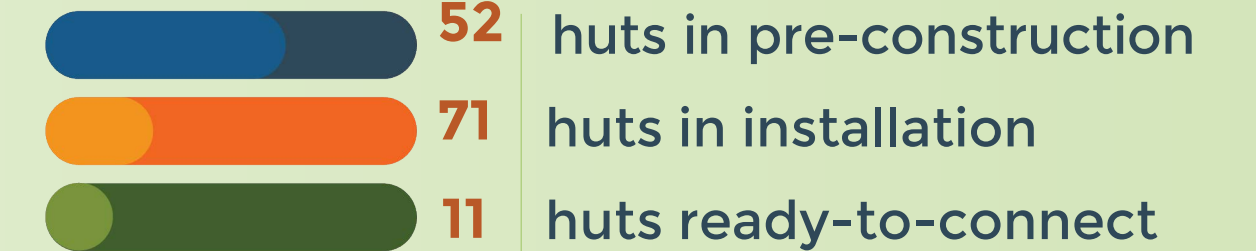

Southern Region: 1,264 total miles

Central Valley Region: 1,979 total miles

Huts: 134 total

3. Spotlight

The Middle-Mile Broadband Initiative (MMBI) connected with county, municipal, and public-agency technology leaders at California's CCISDA Fall Conference and MISAC Annual Conference in Monterey this September. Through these events, MMBI raised awareness of the state's open-access broadband network, available services, and connection opportunities, while CDT also highlighted Poppy and other technology offerings. These engagements help local governments explore how California's middle-mile infrastructure can support broadband and connectivity goals and advance reliable, high-speed internet access for communities statewide.
